View our On Line website Video
www.slidingtarpsystems.com

the LOOK[®] Engineered Sliding System:

- Invented specifically for the transportation fleet managers & owner operators that demand low cost maintenance with quick & easy modular replacement components.
- Professionally Engineered to meet the North American Transportation Standards.
- Best Value, Best Warranty at an Affordable Price

the LOOK[®] Frame & Uplift Systems:

- Fully Modular Aluminum Extrusion
- Two-piece cast corner for strength, durability and easy tarp replacement
- Square interior corner for maximum Load height & width requirements
- Patented Double hinge connected Uplift
- Quad Uplifts available for minimum pleating, maximum load space

the LOOK[®] Modular Tarpaulin:

- 20oz PVC Tension Vinyl
- Six Panels on a 48ft & 53ft System
- Replace only the damaged panel and not the entire tarp
- Digital Print advertising can be printed on any select panel
- Quick & Easy Replacement

STAM-Slack Tarp Adjusting Mechanism

- Designed into the rear car frame to allow fine tune adjustment
- Fully Modular
- Adjust the tarp loaded or empty
- Six Point Adjustment Mechanism
- Now Standard on all LOOK Systems

Loc'N-Load[®] System Lock & Tensioning Mechanism

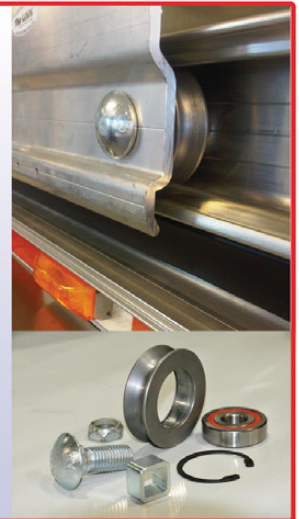

Is a Patented High Powered Compact Lock and Tensioning Mechanism measuring 14" long and weighing only 6.5lbs that travels with the rear car frame and is operated with a captive easy to use ratchet handle.

TRIED, TESTED, PROVEN for 4 Years!

the LOOK[®] Track, Wheel & Light Bar:

- H.D. Aluminum Extrusion
- Removable S.S. Insert
- (28) Metal Wheels (48' Sys)
- Patented Modular Light Bar

the LOOK is protected under North American & International Patents and Trade Marks.
